## **MyBusiness Account Security Code**

1. From the MyBusiness homepage, tap on "Financials."

(	Principal	

2. Next, tap on "Account Security Code," and you'll see a code generated that you will use for authentication when communicating with DAR/RAR.

Principals must be sure to activate the "Financials" permission for their location operators (LOs) in order for them to be able to generate a security code. After Wednesday, June 16<sup>th</sup>, RAR/DAR will only accept security codes generated by the MyBusiness app.
